

## **NEW PRODUCTS**

### **Native & Mass-Labelled PFAS Solution/Mixtures**

#### **PFAS-3PAR & MPFAS-3ES**

The harmful impacts of PFAS exposure on human health and the environment have led to the recognition of three PFAS under the Stockholm Convention: perfluorooctanoic acid (PFOA), perfluorooctane sulfonic acid (PFOS), and perfluorohexane sulfonic acid (PFHxS), along with their salts and isomers. As a result, many countries have begun regulating these chemicals by restricting or prohibiting their manufacture, import, and/or use.

In response to customer inquiries, **Wellington** developed **PFAS-3PAR**, a certified reference solution/mixture containing the linear isomers of these three compounds. **MPFAS-3ES** has also been prepared as a complementary mass-labelled extraction standard to allow for accurate quantification and the development of robust analytical methods.

**Wellington** is committed to developing new solution/mixtures to meet global regulatory requirements. If you have a new product suggestion, please share the details with us via our webform at [www.well-labs.com/newproducts/product-suggestion](http://www.well-labs.com/newproducts/product-suggestion).

	Catalogue Number	Product (methanol)	Qty/Conc
<b>NEW</b>	<b>PFAS-3PAR</b>	<b>Native PFAS Precision and Recovery Standard Solution</b>	1.2 mL
		Perfluoro-n-octanoic acid	PFOA 2000 ng/mL
		Sodium perfluoro-1-hexanesulfonate	L-PFHxS 2000 ng/mL*
		Sodium perfluoro-1-octanesulfonate	L-PFOS 2000 ng/mL*
<b>NEW</b>	<b>MPFAS-3ES</b>	<b>Mass-Labelled PFAS Extraction Standard Solution</b>	1.2 mL
		Perfluoro-n-( <sup>13</sup> C <sub>8</sub> )octanoic acid	M8PFOA 2000 ng/mL
		Sodium perfluoro-1-(1,2,3- <sup>13</sup> C <sub>3</sub> )hexanesulfonate	M3PFHxS 2000 ng/mL*
		Sodium perfluoro-1-( <sup>13</sup> C <sub>8</sub> )octanesulfonate	M8PFOS 2000 ng/mL*

\* Listed concentration is reported as the salt.
